

Landlords Disclosure Of Radon Gas Hazards In A Residential Rental Property

Residential Rental Unit Number Or Other Identifier: _____

Residential Rental Unit Address (Rental complex name if applicable, street address, city, state, zip code):

A radon test in the unit identified above was completed on ____/____/____. Unless a mitigation system has been installed, a tenant may request a re-test in 10 years. (day) (month) (year)

OR

Radon testing was not conducted in the unit identified above but was conducted in other parts of the building where the unit is located. The testing was completed on ____/____/____. Unless a mitigation system has been installed, a tenant may request a re-test in 10 years. (day) (month) (year)

The radon level found in the above identified unit (or, if the unit was not tested, the highest level found during testing in other parts of the building) was _____ pCi/l. A copy of the original results report is available for viewing by the Lessee. Radon mitigation is recommended, but not required, for radon levels of 4 pCi/l or higher. However, if radon levels of 4.0 pCi/l or higher are not mitigated, the landlord and tenant have the option to end the lease after providing at least 30 days notice.

The radon was tested by (check one): A Maine Registered Radon Tester ___/the landlord ___/a tenant ___
If tested by a Maine-registered radon tester, their Maine Radon ID number is _____

A document explaining the hazards of radon, Radon in Rental Housing-A Serious Hidden Danger to Family Health is attached..
